

# **SILACOTE™**

## **Inorganic Mineral Silicate Eco Paint**

***“The most durable and environmentally safe of all paint technologies for concrete and masonry protection”***

### **FIRE SAFE**

**Non-combustible: Class A Flame Spread Zero Smoke Development  
Meets ASTM E1354 and ASTM E84**

### **HEALTH & ENVIRONMENTALLY SAFE**

**Inert Non-Static Zero VOC's Non-Allergenic  
High Vapor Permeability (It Breathes) Will not support condensation  
Water based Does not sustain algae, Mold or Fungi Growth**

### **DURABLE**

**Chemically attaches to substrate: Will not Peel, Flake or Chip off  
Not affected by UV – Colorfast for Decades of Life  
ASTM G53 Accelerated UVB/Humidity Weathering Test  
No effect on coatings after 4,000 hours  
Sheds and rejects water, greatly reducing water adsorption**

### **SHORT & LONG TERM ECONOMIC SAVINGS**

**Two-coat application should last several decades  
Provides huge savings over organic paints that require repainting,  
stripping and repainting on an ongoing basis**

***Paint it once and forget it!***

### **BE SEEN TO BUILD GREEN**

**LEED Credits - Included since the 4<sup>th</sup> Edition of GreenSpec®**
